

Partners in Learning Commitment

Title I Program

We, the students, parents/guardians, and school staff of Odyssey Charter School, hereby establish this School Family Compact in accordance with the regulations set forth by Title I of the Elementary and Secondary Education Act (ESEA). This compact serves as a shared commitment to support the academic success of every student enrolled in our school.

As a school, teacher, or support staff, I commit to the following:

1. **We will teach, model, and consistently reinforce our SAIL expectations** so that our school remains a safe, respectful, and supportive environment for students, staff, and families.
2. **We will provide a safe and inclusive learning environment** to ensure every student feels valued, supported, and able to grow both academically and personally.
3. **We will deliver high-quality instruction aligned to state and district standards and protect instructional time** so that every academic minute is used purposefully to maximize student learning.
4. **We will communicate promptly and regularly with parents and guardians** so that families are informed partners in their child's academic progress, attendance, and well-being.
5. **We will create meaningful opportunities for parent and guardian involvement** to strengthen the connection between home and school and support student success.
6. **We will engage in ongoing professional learning** to continuously strengthen our instructional practices and better meet the needs of all learners.
7. **We will foster a positive school culture grounded in diversity, equity, and mutual respect** so that every member of our community feels a sense of belonging and shared responsibility.

As a student, I commit to the following:

1. **I will meet and uphold our SAIL expectations** so that I can help create a safe, respectful, and caring environment for everyone at school.
2. **I will attend school daily, arrive on time, and come prepared to learn** so that I can stay on track, grow academically, and make the most of each day.
3. **I will actively engage in my learning, complete my assignments, and do my best work** to take ownership of my learning and reach my full potential.
4. **I will treat classmates, teachers, staff, visitors, volunteers, and property with respect** so that our school culture remains positive and welcoming.
5. **I will use technology (including individual devices and smart watches) responsibly and practice good digital citizenship** so that our school remains a safe space and I can complete my work effectively.
6. **I will ask for help, ask respectful questions, and participate in class discussions and activities** to strengthen my learning and collaborate successfully with others.
7. **I will use positive communication and healthy conflict-resolution skills** so that problems do not escalate and everyone feels heard and respected.
8. **I will take responsibility for my choices and accept consequences when needed** to show accountability and learn from my actions.

9. **I will strive to do my best** so that I can be proud of my efforts each day.

As a parent or guardian, I commit to the following:

1. **I will support and reinforce daily school attendance and punctuality** so that my child is present for core instruction and can fully benefit from daily learning, knowing that missed days significantly impact progress.
2. **I will support learning at home by creating a positive environment for learning** to encourage responsibility, focus, and completion of homework and assignments.
3. **I will communicate regularly with teachers and school staff** so that I stay informed about my child's academic progress, attendance, and any concerns.
4. **I will attend parent-teacher conferences and school meetings when possible** to collaborate with teachers and support my child's academic and personal goals.
5. **I will read the email, newsletters, and other communications from the school** so I can stay informed about upcoming events. If I have questions, I will reach out.
6. **I will encourage positive behavior, respect, and responsibility at home and in the community** by reinforcing the school's SAIL expectations and supporting the school's responses and consequences.
7. **I will volunteer and engage with the school community as my circumstances allow** to strengthen my connection to the school, support student success, and better understand how to partner in my child's education. I understand that increased family involvement—up to 40 hours per two-parent household—is strongly encouraged and contributes positively to student success.

By signing this Partners in Learning Commitment, we acknowledge our commitment to work collaboratively in the best interest of our students' success. We understand that the achievement of our goals is dependent on our collective efforts and open communication. We commit to upholding the responsibilities outlined in this commitment and actively support one another's roles in the educational process.
