SLT Committee Minutes

Summary:

The meeting reviewed use and reporting for the 2025–26 School LAND Trust plan and prepared the proposed 2026–27 plan for board approval.

Attendance was confirmed with two absences.

The discussion moved to program goals and funding priorities. Ryan explained the committee’s longstanding decision to direct School LAND Trust funds primarily to school-wide technology and a technology staff position.

Ryan summarized the goals of School Land Trust Funds use, listing tools used (RISE, iReady, Acadience, and online curricular supports) and reporting the most recent decreases in the lowest proficiency categories—math lowest category from 51% to 49% and language arts from 44% to 40%—as measured evidence of impact. Karyn reported that most 2025–26 purchases are complete, with a large headphone order pending procurement through ETS and payroll obligations for the tech position still to be completed.

The team agreed the 2026–27 plan will mirror prior years (technology plus tech personnel), Ryan will present it to the board at the end of the month, and the remaining scheduled May meeting may be handled by email unless School LAND Trust rules change.
