

Bonneville Academy Trust Land Plan for 2025-2026 School Year

Estimated disbursement amount \$54,273.77 (estimated based on prior years, subject to Utah State Trust Lands allocation and enrollment in the 2025-2026 school year)

Goal #1 - To improve student achievement in Math grades K-8 by the end of the academic year 2026.

- Academic Area: Math
- Measurement: Additional 3-5% of students will meet proficient or higher using the Rise test or Acadience test where available.
- Action Plan Steps:
 1. Purchase HMH Into Math curriculum (grades K-8 on a 6 year agreement) to replace existing Math curriculum currently in place. This curriculum meets state standards. (Full disbursement will be less than purchase price of the curriculum, therefore, the full distribution will be proportionally divided per grade based on the enrollment of the 2025-2026 school year; with the requirement for the Administration of Bonneville Academy or the Board of directors to fully fund the difference in cost between the cost of curriculum and the Trust Lands distribution amount).
 2. Discontinue use of prior year curriculum at end of 2024-25 school year.
 3. Implement use of new curriculum in the 2025-26 school year.
 4. End of year compare proficiency with prior year's proficiency to determine outcome (eg. 2024-25 3rd grade proficiency results will be compared with 2025-26 4th grade proficiency results).

Publicity

Please explain how the plan and expenditures will be publicized to the community.

The Plan and expenditures will be publicized to the Bonneville Academy community through a yearly flier, and on the Bonneville Academy Website.

Approval

Please indicate the voting results to approve this school plan.
