2022-2023 SCHOOL LAND TRUST ELECTIONS

Click Here to Sign Up Electronically

If you would like to use your volunteer hours in making Davinci better then you need to join the School Land Trust Committee. This committee will review past plans, school assessment data, and student needs to create a school land trust plan.

There will be 3 open positions for this important committee. We meet once a month for about an hour. Last year, the committee decided to use the state allocated funds to up-grade the technology in elementary and science classrooms to increase student engagement. The committee also decided to hire a math teacher to help with our math remediation program. This year's committee members will track the success of last year's plan and make modifications if needed.

To apply please click yes below and Mr. Donaldson will add your name to the FY23 Land Trust Election Ballot. If there are more than 3 candidates then we will hold elections online at www.davinciacademy.org. Elections must be held within 30 days of the first day of school. We will send out a mass email to all the Davinci community informing everyone of elections or the results of the elections. Good luck and hope to see you on this exciting and important committee.

Cordially,

Fred Donaldson
