SB 241: Supporting Early Literacy at Bonneville Academy

During the 2026 legislative session, Utah passed Senate Bill 241 (SB 241), which strengthens the state's focus on early literacy in kindergarten through third grade. The legislation establishes a statewide goal of having 80% of third-grade students reading on grade level by 2030 and emphasizes early identification and targeted support for students who need additional help in reading.

As part of these new requirements, students in grades K-3 who score below or well below benchmark on the state-approved Acadience Reading assessment may receive an Individualized Reading Plan (IRP). The plan is developed collaboratively by a literacy team that includes the student's parent/guardian, classroom teacher, and appropriate school support staff. Together, the team will identify the student's specific reading needs, determine targeted interventions, and establish how the student's progress will be monitored.

Families of students who require an IRP will receive additional information directly from the school. We look forward to partnering with our families as we implement these new requirements and continue working toward strong reading outcomes for every student.

Parking Lot Safety

We would like to remind everyone of a few important carpool safety procedures. Over the past couple of weeks, we have noticed an increase in unsafe carpool practices.

Please remember to:

- Drive 10 MPH or less in the parking lot, especially during active carpool times.
- Pull forward as far as possible to keep the carpool line moving.
- Please do not stop in the carpool lane to discuss student questions or concerns. If you need to speak with a staff member, park in a designated parking stall and come inside.
- Stay alert and be aware of your surroundings, especially for students and pedestrians.

Thank you for helping us keep our students, families, and staff safe and for keeping carpool running smoothly!
